INSTALLATION

Customer Information: The information in this installation instruction is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely add equipment to your vehicle. These procedures should not be attempted by "do-it-yourselfers."

NOTE:

- Be careful not to damage the body paint finish.
 - This kit should be installed only if the ambient air temperature is 60°F (15°C) or above.
 - To allow the adhesive to cure, do not wash the vehicle for 24 hours. Make sure the customer is aware of this.
1. Line up the template A with the curve end, and attach it to the left front fender with masking tape as shown.

2. Line up the left front fender emblem with the template A. Make sure the edges of the left front fender emblem and A-pillar corner trim are lined up, and the left front fender emblem matches the shape of the left front fender.

Make sure the edges of the left front fender emblem and A-pillar corner trim are lined up.

Make sure the left front fender emblem matches the shape of the left front fender.

7. While applying light pressure against the left front fender emblem, carefully remove the taped adhesive backings.

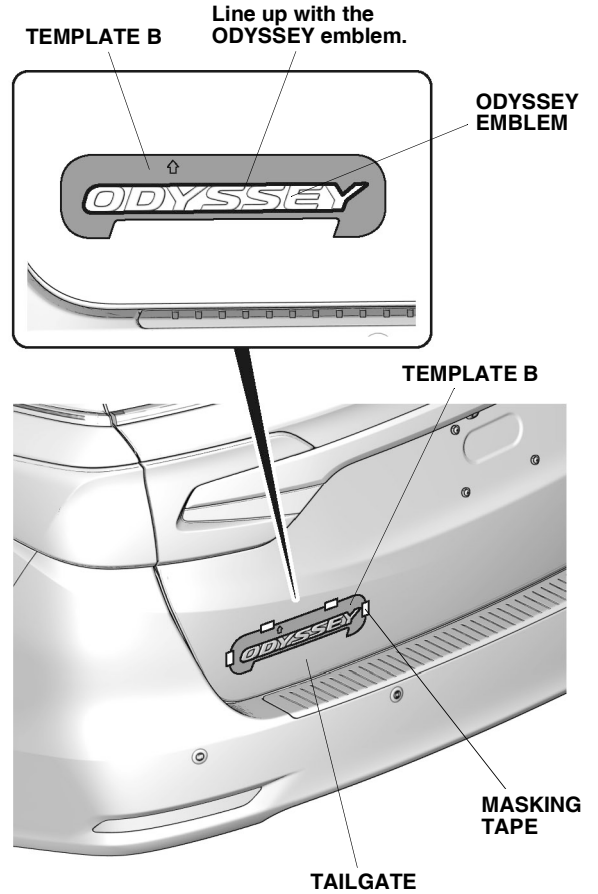

8. Using a rubber roller, apply firm pressure against the left front fender emblem and roll from one end to the other. Remove the template A. NOTE: Apply firm pressure, especially at the ends.

9. Turn the template A over, and repeat steps 1 through 8 on the right side of the vehicle.

10. Line up the template B with the ODYSSEY emblem, and attach it to the tailgate with masking tape as shown.

11. Using the alcohol wipe, thoroughly clean the tailgate where the rear emblem will attach.

Germain Honda of College Hills

12. Peel back the adhesive backing halfway, and tape it to the front surface of the rear emblem with masking tape.

13. Line up the rear emblem with the template B, and attach it to the tailgate as shown.

14. While applying light pressure against the rear emblem, carefully remove the taped adhesive backing.

15. Using a rubber roller, apply firm pressure against the rear emblem and roll from one end to the other. Remove the template B. NOTE: Apply firm pressure, especially at the ends.
